## **PRESS STATEMENT**

The **South East East South South Professionals of Nigeria (SESSPN)** has received with deep regret the unfortunate murder of **Mr. Ahmed Gulak** Politician and former Special Adviser to former **President Goodluck Jonathan**. This dastardly act which reportedly occurred in Owerri, Imo State last weekend, is not only worrisome but represents a significant setback in the struggle for a Just, Fair and Peaceful Nigeria. The SESSPN hereby **condemns** this callous act in the strongest terms permissible and cautions that this is a very dangerous dimension to the festering insecurity in the South East hitherto a very peaceful haven for Social and Economic activities. We urge all those responsible for the wanton killing of security officials, innocent Citizens, the burning and looting of Public Properties to sheath their Swords and embrace a road map for peaceful and orderly change in the affairs of Nigeria.

While condoling with the **Wife, Family, the Government and People of Kebbi, Adamawa State** for this cowardly murder, the SESSPN once again renew the call to the National Assembly and all those currently engaged in the fruitless exercise of Constitutional review that what majority of Nigerians are yearning for is an entirely new Constitution put together by the voice of the majority of Nigerians and endorsed via a referendum.

It is the view of SESSPN that the Federal Government of Nigeria should stop believing that the present agitations for structural changes and the deteriorating Security challenges will fizzle out without a decisive response to the yearnings of Nigerians for a new Constitution, and for Equity and Justice in the affairs of Nigeria.

The SESSPN as an advocacy non-political, non- partisan Group will continue to support a United Nigeria Sustained only by Equity and Justice.
